Phone, Internet and/or TV Service Providers

Service Provider	Contact Information	Description of Services
AT&T	Norma Salgado, nc6929@att.com, (562)229-6296, (888) 944-0447	AT&T provides fiber which enables the delivery of High Speed Internet, Private Point to Point, and MPLS on the AT&T Global Network. We can also provide traditional services such as analog lines and PRI service. Our portfolio also provides services over any internet connection to include Voice Over IP, Email, Web, and Outbound Data Security. For your Phones, Tablets, and Wireless Access Devices our Mobile Network is highly customizable. Entertainment is delivered via Direct TV or via the App Direct TV Now tailored to your business needs.
Cogent Communications	Brian Peck (424) 646-4202 office, (626) 590-7039 bpeck@cogentco.com	Internet Service Provider. Cogent specializes in providing business with dedicated, symmetric, high speed Internet access, Ethernet transport and colocation services. Cogent built one of the largest and highest capacity IP networks in existence. This network enables Cogent to offer larger bandwidth connections from 100 Mbps to 10Gpb at highly competitive prices with less than 17 business day installation after contract validation at this location.
Cox Communications	Joe Laskey, Senior Account Executive (949) 563-8107 office, (949) 214-6235	Cox Business can provide a variety of voice options, data speeds & HDTV selections over our coax, or fiber plant within your building. Installation timeframes could be in as little as three business days.
LUMAN aka Level 3 Communications or Century Link	(877) 4Level3	Our global fiber network serves businesses—and only businesses. Whether your goal is reducing costs, improving processes, implementing new applications or migrating to the cloud, our reliable, secure network enables solutions that scale to support new ways of doing business without compromising the nimbleness that keeps you competitive. And our comprehensive portfolio of data, security, video, voice and unified communications solutions provide powerful options to address your most difficult IT challenges.

** Information has been provided by the service providers and should be verified by those seeking such services **

Phone/Internet Service and Installation Process: 1) Choose Provider (AT&T, Cogent, Cox, LUMAN), 2) Contact Summit Riser to bring lines from Minimum Point of Entry (MPOE) to back board within tenant space and 3) Have cabling vendor distribute lines throughout tenant space.

NOTE: Summit Riser Systems (SRS) is the building's exclusive riser management vendor partner. Starting from the Minimum Point of Entry (MPOE) through the common area hallways to the demarcation point (DMARC, plywood backboard or Server Room) within the tenant's suite, SRS will execute all riser or feed cable installations, facilitate all cross connects and perform all testing within the building's riser system. These services will be provided to you by SRS in a courteous and expeditious manner at competitive rates. For a more information on the SRS Riser Management program go to: www.summitrisersystems.com. Call Toll Free at (866) 778-6648. Email: info@summitrisersystems.com
